

Concertina Fish Puppet

You will need

Card (any colour); felt tip pen; 2 straws; sticky tape; wiggle eye.

What you do

First rip a piece of card into a fish shape. Draw a mouth and other details on your fish. Fold the paper fish over one way and then over the other way until it is completely folded. Stick two straws on the back – one at the head and the other at the tail. Finish it off by sticking on the wiggle eye. Make different size/colour fish/sea creatures and make a puppet show.
