

Swashbuckle

Pirate Telescope

You will need

Cardboard tube
(from clingfilm)
Cardboard tube
(from aluminium foil)
Coloured A4 card
Sticky tape
Paint
Brushes

Remember to ask
a grown-up for help

1

Paint your tubes in any colour you like.

2

Let the tubes dry and cut out three strips out using your coloured card.

3

Wrap the strips around one end of the thinner tube and both ends of the thicker one and stick them down using sticky tape.

4

Put the thinner tube inside the thicker one. Decorate your telescope however you like using stickers or glitter.
