

Home learning for Year 6

Hi Year 6!

We hope you are all doing really well and remember to rest and relax as well as working to help keep your mind healthy and happy!

Please find this week's home learning detailed below and remember, please email if you require any help.

Stay safe,

Mrs Caine & Mrs McDonald

Week beginning 13th July

RE – Common Good Lesson 3 – God sent Jesus to bring the Good News to everyone. Write an article for a school magazine about what the world would look like if all people lived out the Good News of justice Jesus spoke about.

Maths – Each day, open the 'Y6 Maths Flashback 4 properties of shape warm ups' document and complete the 4 quick recap questions for that day onto paper or a notebook. The answers are provided in the document for you to check afterwards.

Then, look online for White Rose home learning resources for Year 6

<https://whiterosemaths.com/homelearning/year-6/>

For each day there is a short video to watch online. The worksheet and answers can be found on the school website. **This week please do Summer Term - Week 12 (w/c 13th July) which focuses on a mixture of maths.**

You can also make use of Mathletics and <https://www.mathsisfun.com/> is another good place to look if there's an area you think you need more work on and has explanations, games and worksheets.

English – You have a series of images and story starters. Be creative and write a short story for each of these. Remember to think of all the different grammatical techniques that you have acquired and how you can best manipulate these for effect. Use a thesaurus to find synonyms for words and be adventurous in your word choice.

SPAG – Continue to work through some more of the pages yet to be completed from your CGP Spelling, Grammar & Punctuation book which was provided for you by school.

Geography – Use the slides on Fair trade and create poster.

Science – We continue the 'Living things and their habitats' topic. Use the Microorganisms PPT provided and complete the accompanying worksheet to carry out an investigation at home using bread.

Art & Music

Ongoing projects were added to the Y6 home learning page for Art (based on pop art) and music (Dancing in the street) on 20th April. Part of these is to be completed each week so don't forget about them because they are at the bottom of the page!
