

Home Learning Year 5 Week commencing 20th July 2020

Hello Year 5 – it's the final week of term and only a 4 day week as it is INSET day on Friday! Our second Zoom call was great and I hope you enjoyed the quiz I put together for you. For those of you in school, I hope you have enjoyed your first week back and things haven't felt too strange. Have a fantastic summer holiday. Stay safe, as always, and I can't wait to see you all in September!

Remember to keep fit each day with a Joe Wicks workout, Miss Bee's warm ups or an alternative that you have found yourself and are enjoying.

Resources for prayer at home will be regularly updated at www.beinspirational.co.uk so please make use of these, alone or with your family, too.

Work for any following weeks will be uploaded in time for each new week so check back each Monday to find your work for that week!

Stay safe,

Mrs Nicholson

Maths

We have completed all of the maths resources provided on the White Rose website so I have put together some revision sessions on short division (bus shelter method) and column multiplication. The videos on the links below work through at quite a pace and the question booklets are quite lengthy so I have spread them over 2 days. You may need to repeat parts of the videos or skip through them depending on your confidence levels.

Monday's and Tuesday's lesson video link: <https://corbettmathsprimary.com/2018/05/30/division-video/>

Wednesday's and Thursday's video link: <https://corbettmathsprimary.com/2018/07/21/multiplication-video/>

I have uploaded 2 Fluent in Five's this week as I missed it off last week! No pressure to do both but I know some of you love your maths!

Extra maths lessons can be found on the link below. They provide a daily lesson for Year 5/6: <http://www.iseemaths.com/lessons56/>

Don't forget to practice your times tables and access Mathletics using your login details. This is also a good opportunity to sharpen up your skills with telling the time!

English – <https://www.bbc.co.uk/bitesize>

Please continue to use the link above to access the daily English lessons for Year 5. I would like you to do the daily English lesson on here as it provides a good model for teaching grammar. Watch the

videos, complete the online games/tasks and then have a go at the written activities, either in your drafting books or on paper.

Of course, you can also do the extra maths and other subjects if you like!

Writing task – Alma (thriller story)

<http://www.literacysshed.com/alma.html> Use this link to watch the video – Alma.

I have uploaded a blank planning sheet for you to plan the narrative to the film.

I have also uploaded a modelled write on a planning grid to help you develop your own ideas. Your planning sheet won't be as detailed as mine as I have actually written the whole narrative to show you which paragraph relates to each section on the planning grid.

The specific grammar focus in this piece is a semi colon list. We did cover this earlier this year when we did creation myths, so hopefully you'll remember some of it! I have added an activity to jog your memories!

RE – Transformation -Lesson 4: Transformed by the Holy Spirit

Please see the separately attached sheets for instructions and the activity for lesson 4.

Science – Human Body - organs

Here is some revision on the main organs in the human body and what their job is! Have fun making the passports!

History – Maya House

Just for fun! Have a go at labelling the Maya house with the correct labels. The answers are there for you to check afterwards. You could colour the page in too!

Art – You have the document on the website from week beginning 20th April that will guide you through a weekly session.

An alternative could be to use the following link to watch and replicate the tutorials.

<https://www.youtube.com/watch?v=7GaETZJ8oMI> This link will take you to a tutorial for a ladybird but there are lots of other options on the #artforkidshub You Tube channel.

Music - <http://www.nottinghammusicclub.org.uk/> Use this link to access the Nottingham Music Hub. You will be able to access the digital lessons (no instruments required) and if you are in area band you can access their sessions and the instrumentals too!
