

## **Home Learning Year 5 Week commencing 29th June 2020**

Hello Year 5! We hope you enjoyed the hot weather last week and managed to stay safe in the sun. Wednesday was certainly an extremely hot day! The work for this week is below – take a look and we hope you enjoy it! Please ask your parents and carers to check the website as we are hoping to organise some zoom video calls but we need their permission and consent first!

Remember to keep fit each day with a Joe Wicks workout, Miss Bee's warm ups or an alternative that you have found yourself and are enjoying.

Resources for prayer at home will be regularly updated at [www.beinspirational.co.uk](http://www.beinspirational.co.uk) so please make use of these, alone or with your family, too.

Work for any following weeks will be uploaded in time for each new week so check back each Monday to find your work for that week!

Stay safe,

Mrs Nicholson and Mrs Moss

### **Maths - <https://whiterosemaths.com/homelearning/year-5/>**

Please continue to use the link above to access daily maths lessons. You should now be on Week 10 Summer term. The link provides a teaching video, but the questions and answers are now available on our school home learning page.

The original style 'Fluent in Five' are back! Please complete 5 questions a day for the five days.

Extra maths lessons can be found on the link below. They provide a daily lesson for Year 5/6:  
<http://www.iseemaths.com/lessons56/>

Don't forget to practice your times tables and access Mathletics using your login details. This is also a good opportunity to sharpen up your skills with telling the time!

### **English – <https://www.bbc.co.uk/bitesize>**

Please continue to use the link above to access the daily English lessons for Year 5. I would like you to do the daily English lesson on here as it provides a good model for teaching grammar. Watch the videos, complete the online games/tasks and then have a go at the written activities, either in your drafting books or on paper.

Of course, you can also do the extra maths and other subjects if you like!

### **Writing task – Would you rather?**

It was great to hear and see that so many of you enjoyed the 'where would you prefer to live?' writing task from a couple of weeks ago. With that in mind, I thought we'd have some fun and play a few rounds of 'Would you rather..?'

Choose one option from each of the questions below and write a paragraph for each justifying your choice! Please send them to me via email so I can see what you've chosen!

**1. Would You Rather Sneeze Cheese Or Have Your Tears Be Chocolate Flavoured?**

**2. Would you rather eat a dead bug or a live worm?**

**3. Would you rather have a horses tail or a unicorn horn?**

## Reading - Comprehension activity

I have attached a reading comprehension on the Great Plague. As per last week, there are 3 differentiated levels in the document. If you are on blue and grey band have a go at the first set of reading and questions (1 star); burgundy band the second set of reading and questions (2 stars); and free readers the third set of reading and questions (3 stars).

## RE – Transformation -Lesson 1: On the road to Emmaus

This is the start of a new topic – 'Transformation'. Please see the separately attached sheets for instructions and the activity.

## Science – States of Matter

I have attached a couple of activities that are a good recap of the materials topic we did earlier this year. Have a go at them and see what you can remember!

## Geography – London Underground

I have attached a copy of a London Underground map. Use the key and the map to plan various routes around London. Maybe use the link below to research where favourite places to visit may be and plan a route on the underground to get there and back.

<https://www.theresident.co.uk/london-culture-events/15-great-places-to-visit-in-london-with-children/>

**Art** – You have the document on the website from week beginning 20<sup>th</sup> April that will guide you through a weekly session.

An alternative could be to use the following link to watch and replicate the tutorials.

<https://www.youtube.com/watch?v=7GaETZJ8oMI> This link will take you to a tutorial for a ladybird but there are lots of other options on the #artforkidshub You Tube channel.

**Music** - <http://www.nottinghammusicclub.org.uk/> Use this link to access the Nottingham Music Hub. You will be able to access the digital lessons (no instruments required) and if you are in area band you can access their sessions and the instrumentals too!
