

Home Learning Year 5 Week commencing 8th June 2020

Hi Year 5 – I hope you got back into the swing of school work last week and are keen to see the activities for this week!

Remember to keep fit each day with a Joe Wicks workout, Miss Bee’s warm ups or an alternative that you have found yourself and are enjoying.

Resources for prayer at home will be regularly updated at www.beinspirational.co.uk so please make use of these, alone or with your family, too.

Work for any following weeks will be uploaded in time for each new week so check back each Monday to find your work for that week!

Stay safe,

Mrs Nicholson and Mrs Moss

Maths - <https://whiterosemaths.com/homelearning/year-5/>

Please continue to use the link above to access daily maths lessons. You should now be on Week 7 Summer term. The link provides a teaching video, but the questions and answers are now available on our school home learning page.

Well done for completing all of the ‘Fluent in Five’ activities each week. These will now follow a slightly different format, but will still be good to keep your arithmetic skills sharp! Each page has four questions and the answers are on the following page.

Extra maths lessons can be found on the link below. They provide a daily lesson for Year 5/6:
<http://www.iseemaths.com/lessons56/>

Don’t forget to practice your times tables and access Mathletics using your login details. This is also a good opportunity to sharpen up your skills with telling the time!

English – <https://www.bbc.co.uk/bitesize>

Please continue to use the link above to access the daily English lessons for Year 5. I would like you to do the daily English lesson on here as it provides a good model for teaching grammar. Watch the videos, complete the online games/tasks and then have a go at the written activities, either in your drafting books or on paper.

Of course, you can also do the extra maths and other subjects if you like!

Writing task – There is a story called ‘Kidnapped’ for you to read and then on the following sheet there are some activities you could complete which guide you in to writing your own version of a kidnapped story. Have a go – I would love to read some of them if you are able to email them over!

Reading - Comprehension activity

I have attached a reading comprehension on elephant life cycles (which may also help with science this week). Read the text and have a go at answering the questions. The answers are at the end of the document.

Please continue to read at least 3 times a week and write comments in your diaries. The link above gives access to free audio books – there are lots of different genres to choose from!

RE -Sacrifice – Lesson 4 – Lent, The sacrifice of Jesus.

Please see the separately attached sheets for instructions and the activity.

Science – Life Cycles

Choose your favourite animal, research about the life cycle of that animal and create an information poster. You could include: the gestation period, the stages of life, what/when the key developmental stages are. Make sure you use diagrams/pictures and written facts.

Geography – Co-ordinates

There are 2 activities about co-ordinates to complete.

Art – You have the document on the website from week beginning 20th April that will guide you through a weekly session.

An alternative could be to use the following link to watch and replicate the tutorials.

<https://www.youtube.com/watch?v=7GaETZJ8oMI> This link will take you to a tutorial for a ladybird but there are lots of other options on the #artforkidshub You Tube channel.

Music - You have the document on the website from week beginning 20th April that will guide you through a weekly session.
