

Home learning for Year 6

Hi Year 6!

We trust that you are accessing and getting on fine with the work we are putting online. Please email if you require any help, or if there's anything you're especially proud of that you want to share with us!

We have put together some work for you for this coming week. We hope that you find this helpful and remember to rest and relax as well as working to help keep your mind healthy and happy.

If you can, begin each day with Joe Wicks PE lessons at 9am – you can find these on YouTube and if you miss the workout at 9am, it will be saved so you can have a go later in the day!

Resources for prayer at home will be regularly updated at www.beinspirational.co.uk so please make use of these, alone or with your family, too.

Work for any following weeks will be uploaded in time for each new week so check back each Monday to find your work for that week!

Stay safe,

Mrs Caine & Mrs McDonald

Week beginning 8th June

RE – This week, we begin our new RE topic 'Healing'. Please see the task and children's sheets for this week's activities.

Maths – Each day, open the 'Y6 Maths Flashback 4 decimals warm ups' document and complete the 4 quick decimal recap questions for that day onto paper or a notebook. The answers are provided in the document for you to check afterwards.

Then, look online for White Rose home learning resources for Year 6

<https://whiterosemaths.com/homelearning/year-6/>

For each day there is a short video to watch online. The worksheet and answers can be found on the school website. **This week please do Summer Term - Week 7 (w/c 8th June) which introduces algebra – a topic we haven't covered yet.**

You can also make use of Mathletics and <https://www.mathsisfun.com/> is another good place to look if there's an area you think you need more work on and has explanations, games and worksheets.

English – This week's English is a writing activity based upon the book 'The Red Tree' by Shaun Tan. There is a copy of the book available online; please click the link on the task sheet to read the book. There are some helpful reminders of fronted adverbials and expanded noun phrases included in this

week's home learning. Remember you can search online to find help with any other grammatical techniques if you need a reminder.

Science – electricity

Use <http://resources.schoolscience.co.uk/BritishEnergy/11-14/circh1pg2.html>

to find out about voltage. Use <https://www.bbc.co.uk/bitesize/topics/zq99q6f/articles/zt8vg82> to recap on electricity and circuits and find out what happens if you add additional cells to a circuit. Use both of these to help you complete the sheet 'Y6 Science voltage & circuit symbols'.

PSHE

Read the short story about worries that we might face during a time with so much change:

<https://www.calameo.com/read/000777721945cfe5bb9cc?authid=Xu9pcOzU3TQx>

Use the 'Y6 PSHE 2020 Covid Time Capsule' document to create something to help you look back on this time in the future. You do not need to complete this all this week – work on it as you wish over the coming weeks. Talk to someone you trust about any worries you may have or feelings you are unsure about. You can find advice on dealing with stress and anxiety on our school website coronavirus section at

https://www.stmaryshysongreen.com/uploads/2/2/3/8/2238960/information_to_help_with_stress_anxiety.pdf

Art & Music

Ongoing projects were added to the Y6 home learning page for Art (based on pop art) and music (Dancing in the street) on 20th April. Part of these is to be completed each week so don't forget about them because they are at the bottom of the page!
